OCA 88-1235/1

19 April 1988

NOTE TO: Britt Snider
Minority Counsel, SSCI

FROM:

Office of Congressional Affairs

SUBJECT: Public Buildings Amendments
of 1988 (S. 2186)

Britt,

1. Helen Kalbaugh, staffer with the Senate Environment and Public Works, has agreed that CIA should be exempted from the Public Buildings Amendments of 1988 (S. 2186). She asked that we provide her with the exemption language and a statement that could be used on the Senate floor when the amendment is introduced. A copy of these are attached.

2. The agreement calls for the Committee Chairman, Senator Quentin Burdick, to introduce the amendment. He apparently has agreed. The amendment, if I have it right, will go forward with the Committee report due out at the end of the week.

3. I believe this agreement with Kalbaugh takes care of our problems with the bill. I will keep you posted if it looks like it is coming off track.
